Projects

Hospital Management System (Aug 2023 - Oct 2023)

- Developed a comprehensive Hospital Management System (HMS) to streamline and automate the operations of a hospital. The system is designed to manage patient information, doctor schedules, and appointment bookings. This web-based application ensures that hospital staff can manage their tasks with ease, improving overall operational efficiency and patient care.
- Technologies - [HTML, CSS, JavaScript, Django]

Career Counselling Website (Feb 2024 – May 2024)

- Developed a comprehensive Career Counselling Website aimed at providing students and professionals with personalized career advice, resources, and tools to help them make informed career decisions. The platform offers features such as career assessments, expert consultations, and educational resources. This web application is designed to be intuitive and user-friendly, catering to the needs of users seeking career guidance.
- Technologies - [HTML, CSS, JavaScript, NodeJS, MongoDB, ReactJS, Clerk]

Certification

- HTML, CSS, and JavaScript for Web Developers by John Hopkins University (Dec 2023)
- Certified for Python Essentials (May 2023)
- NPTEL Certification : An Introduction to Artificial Intelligence
